Product features & Advantages

Storage all kinds of water

Nandyala Nandi Pipes Water Tanks can handle... corrosive, salty, and mineralized water, that stainless tanks cannot.

UV Resistant

The Polyethylene material is UV stabilised that ensures the tank lasts above 10 years.

Food Grade and Portable

Manufactured from Virgin, food grade approved polyethylene resins from reputable suppliers. Tests prove that material does not impact any toxicity, color or odor to the storage water.

Quality Assurance

Consistent quality achieved through systematic product and material testing programs .. Quality Control (QC) ensure premium quality with standard warranty of 10 years.

Maintenance Free

Polyethylene does not rust, No painting or corrosion protect coating required.

Strong, Seamless, and Leak proof

One-piece seamless construction guarantees leak proof tanks that are strong, rugged and impact resistance.

Lightweight for easy handling

Lightweight and rugged properties Facilitate easy & fast handling, transportation and installation.
